THOMAS FOR ROSES

Gardens open daily dawn till dusk. Office daily office hours. Tel/ fax (08) 8389 7795, Office closed some Wednesdays February to May ring to confirm.

We pride ourselves on our efficiency and personal service, but of course all the best laid plans sometimes go wrong (Murphy's Law). So please tell us promptly if anything seems amiss, we want to help you put it right. With change of seasons, water and weather conditions plus all of the new sprays and fertilizers etc, we feel we cannot be responsible to replace roses after three months of purchase.

Collection of Roses from Nursery.

Our digging period is from 1st of June to the 31st of August, we do not contact you to say your Roses are ready, instead we ask you to notify us **TWO DAYS** before you wish to collect any time in this period, either by phone 8389 7795 or on your order form (this saves the plants being out of the ground longer than necessary.) You can expect a call from us mid to late August with any orders where we have had no notification.

Acknowledgment

We acknowledge orders and approximate total cost of orders IF asked to do so by phone, so please state when we can contact you, i.e. evenings etc, or mail please enclose stamped self addressed envelope for this purpose. Thank you.

Payment.

Cheque, cash or money order made payable to Thomas for Roses on collection of your order.

Sorry we do not carry bank card facilities.

Dispatch by Post or Delivery Local

All post orders interstate etc. are dispatched on Mondays mornings, this guarantees a maximum travelling time of approx. a week for your order to reach you once it has left the nursery. The invoice is attached to the outside of the parcel showing cost of roses plus postage. Delivery 40 kilometers distance (e.g. city) a charge of \$5-50 is added to the account. We cannot say which day of the week we will deliver as it depends on our digging schedule, however we will ring the evening prior, if you will not be home please tell us then where we can leave your bundle of roses, i.e. in the shed, back of house, next door etc. Thank you.

Gift Tokens.

What better gift can you give your gardening friends. This gives you or your friend a chance to exchange the token for a rose or roses from our vast number of varieties.

Early Ordering.

Orders can be placed any time from now to Winter digging so we strongly advise early ordering to avoid disappointment as only limited stock of some varieties are available, if the variety you are looking for is not in the catalogue please ask, it could be available or we may be able to obtain it for you.

Order Separation.

If you have included roses for a friend with your order, please advise us prior to digging so we can bundle them separately. Thank you.

Thomas Guarantee

Any plant found untrue to name will be replaced free.

Saving old roses, another personal service.

If you have an old rose you particularly wish to save, please contact us early in the season (Oct, Nov, Dec) and we can propagate it for you to have in the winter.

THANK YOU FOR SHOPPING AT THOMAS FOR ROSES

NOTE * Denotes roses protected by P.V.R. these roses are obtainable however.

Dormant period for digging is June, July & August.

**PLEASE CALL IN AND SEE OUR DISPLAY GARDENS ANYTIME
JUST LOOK FOR THE SIGN ROSES.**

DOS & DONTs.

Do not use fowl manure or other quick soluble fertilizers at planting time because burns the roots etc.

Do not replant roses into old soil where old roses (5years plus) have been removed. Renew with fresh soil from other parts of the garden.

Do not use weedicide or pre emergence weedicides for at lease six months before planting, do not dig in weedicide dead weeds.

Do Not plant roses in poorly drained position, raise beds and apply gypsum about 600gms per meter.

Situation. All roses require an open sunny & well drained position, some roses will do partly o.k. in shade (China roses & Polyanthas, floribundas) ones which have a percentage of resistance to fungal diseases & wind allowing for movement of air etc. cut overhanging branches of trees.

We have not listed our standards by variety in the catalogue as there vary depending on popularity etc, separate lists are available on request.

TYPES OF ROSES

Hybrid Tea Roses - Large single stem roses.

Floribunda Roses _ Cluster roses.
